

Established in 2014 to recognise projects which demonstrate the highest standards of historic building conservation that make an outstanding contribution to the quality and appearance of the built environment.

Sponsored by the AABC

presented to

Maison Dieu (Dover Town Hall)

Dover, South East

“Through a combination of historical insight, material care and confident restraint, the project has returned a nationally important building to public life, not as a museum piece, but as a living part of Dover’s civic identity. The result is a building that feels robust, usable and welcoming, rather than fragile or over-managed, representing a decisive shift from decline to stewardship.”
